SKILLS

- **Languages:** Java, C++, JavaScript(ES6+), Python, PHP
- **Frameworks:** NodeJS, React, Express, Tailwindcss, jQuery, Next.js, Django, Django REST Framework (DRF)
- **Databases:** MySQL, MongoDB, Redis, PostgreSQL, Redis
- **DevOps & Tools:** Docker, Git, GitHub, Postman, Celery, Render, Firebase, Supabase

PROJECTS

Hireflow – Multi-Role Job Board API:

Mar '26

- Engineered a production-grade REST API with role-based access control, custom JWT permission classes enforcing company-scoped data isolation.
 - Designed async CSV bulk-upload using Celery + Redis (Docker), allowing 500+ job listings to be imported in the background.
 - Implemented application state machine (Pending->Reviewd->Accepted/Rejected) with ForeignKey-relational PostgreSQL models and role-enforced PATCH endpoints
- Tech:** Django, DRF, PostgreSQL, SimpleJWT, Celery, Redis, Docker, REST APIs.

Scribe – Full-Stack Blogging & Creator Platform:

Jan '26

- Built a scalable full-stack blogging platform enabling users to create, edit, and publish rich-text articles with image support, using MERN Stack for structured content storage.
 - Implemented secure user authentication using Firebase Auth with backend ID token verification, enabling protected APIs, role-based access control, and personalized user experiences.
 - Enhanced the platform with optimized media handling (Cloudinary), post analytics (views & engagement tracking), and an extensible monetization layer with Razorpay-ready subscription.
- Tech:** React.js, Node.js, Express.js, MongoDB, Firebase Authentication, Cloudinary, Razorpay, REST APIs.

MediBot – Healthcare Customer Service Chatbot:

Sep '25

- Developed an AI-powered healthcare chatbot using MERN, delivering instant responses with 24/7 availability.
 - Integrated Google Gemini API with multi-intent detection, contextual memory, and safety fallbacks, improving response accuracy and reducing unsafe outputs by ~40%.
 - Implemented secure authentication and protected API routes, ensuring safe user access, session management, and persistent conversation history.
- Tech:** React.js, Node.js, Tailwind css, Express.js, MongoDB, Gemini API

CERTIFICATES

- AWS Certified Cloud Practitioner — Stephane Maarek Jan '26
- Advanced Python for ML & AI — CSE Pathshala Jun – Jul '25
- Web Development with Django — Coding Blocks Oct '23 – Apr '24
- Data Structures and Algorithms Using C++ — Cipher Schools Aug – Nov '24

ACHIEVEMENTS

- **Participated in multiple hackathons:**
Building end-to-end solutions for real-world problem statements, collaborating and competing with developers from diverse colleges
- **Attained a 100 days leetcode badge :**
Focused on solving 150+ DSA problems across understanding the concepts of different data structures and patterns like greedy, dynamic programming and two pointers

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.1 Since August 2023
- **Vikas Vidyalaya** Begusarai, Bihar
Intermediate; Percentage: 74.6% April 2021 - March 2023
- **St. Paul's School** Begusarai, Bihar
Matriculation; Percentage: 92.8% April 2020 - March 2021
